

Click for Best Deals 

1.

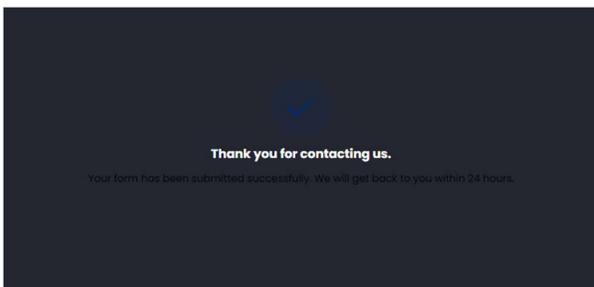

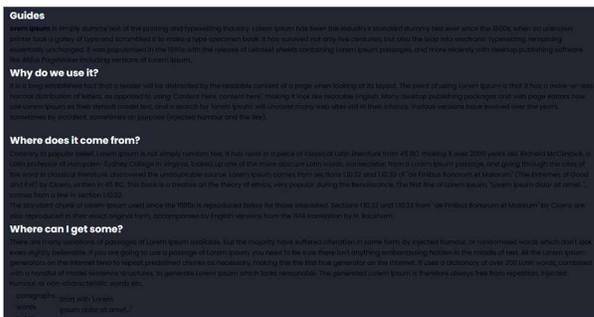

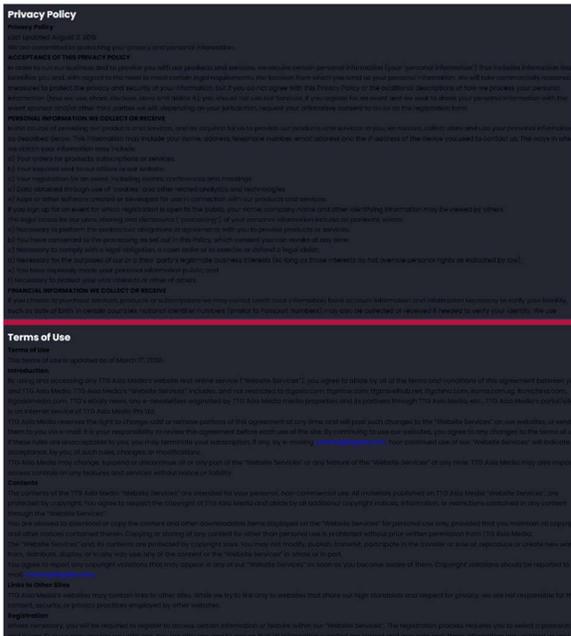

The button to be allowed to change at the backend. "Deals" remove one s

2. Sliding banner not auto rotating?

Ability to set a duration of each banner at the backend?

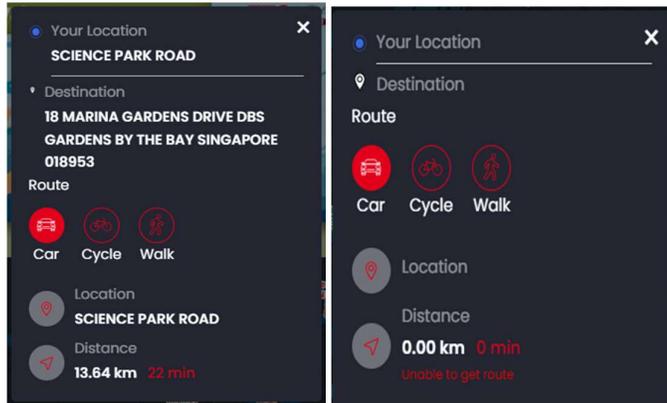

3. Font and background to be contrasting. For dark mode: fonts should be white in colour only

Applies for pages: Contact us thank you page after enquiry submission, About Us, Privacy Policy, Terms of Use, Guides

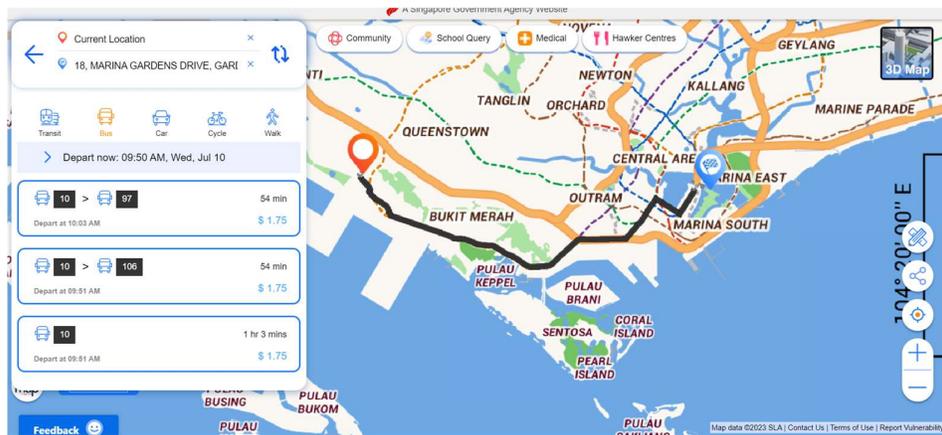

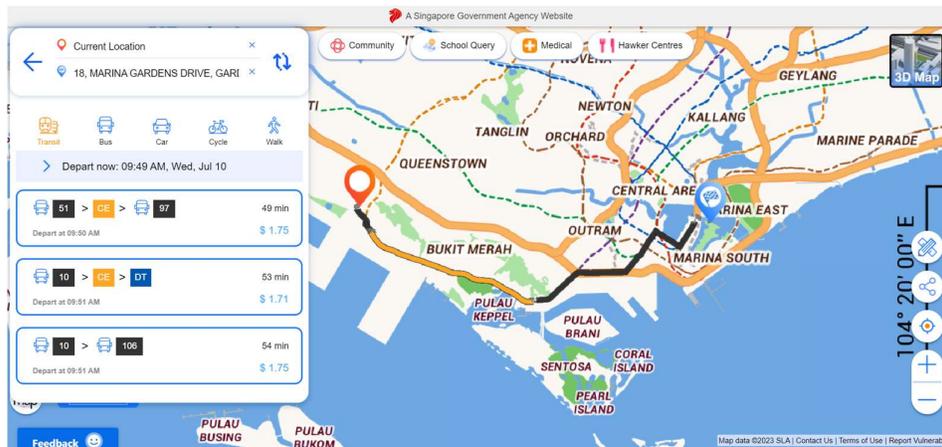

4. **Navigation:** it still doesn't work on the Map App

Why is it that when click the "car" is shows the distance and route, however if after clicking "cycle" / "walk" routes and back to "car" route the distance and routing does not show up?

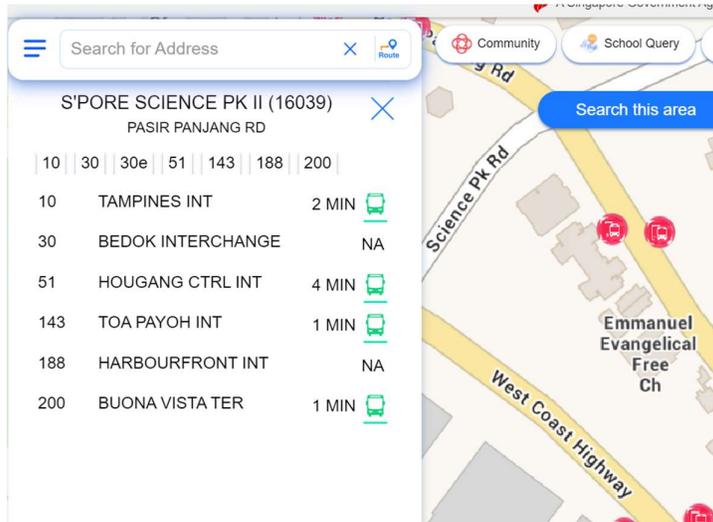

5. To add in public transport routes

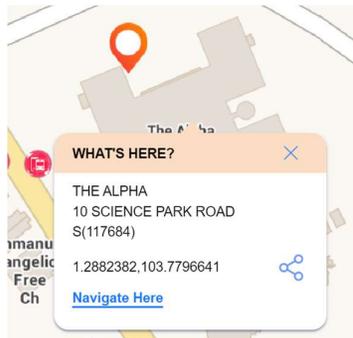

Below are from OneMap, please check if can API public transport details from there.

Clicking on the bus stops should show the buses and timings as below:

Details to be shown when click “My Location” and ability to share

Possible to have the map zoomed in more? To be able to see the building and streets in detail
